BAG WITH WHEELS

The MiniCat bag with wheels helps to move your packed Mini-Cat on the hard surfaces.

The wheels should not be used on the sand, or in water. Size of the bags is identical to the original bags.

If you want your boat to come in bag/s with wheels please ask for Upgrade to Wheelie Bag/s.

Dimensions:	80 X 40 x 20 cm
Weight:	3,9 kg

Prices are excluding VAT.

CARBON MAST

It is about 30% lighter than the aluminium one and it makes the erection of the mast much easier, especially on the 460. The carbon mast also enhances performance. The dimensions and the assembly are identical to the aluminium mast.

You can purchase it as an accessory (in case you already own MiniCat) or as an option Upgrade to Carbon Mast which means you will receive your new MiniCat with a carbon mast instead of the Aluminium one.

Weight comparison of the carbon vs. alu masts

	ALU	CARBON
M420	7,2 kg	4,4kg
M460	9,5 kg	5,3 kg
Dimensions of the package:	175 x 30 x 10 cm

Prices are excluding VAT.

ROLLING SAIL GENNA

An additional, ultra-light, triangular shaped rolling sail which significantly improves the performance when sailing not only on the tailwind, but also on the crosswind and even slightly against the wind. Similar to “Code Zero” sail.

Equipped with furler, so it doesn't need snuffer as it can be rolled back in similar style as the jib is. Easy to operate for a single sailor. Can be used in conjunction with the mainsail and jib.

Set includes:	Size of the sail:	
Sail Furler Bowsprit extension Pulleys Mast fitting	M420	7,9 m ²
	M460	9,9 m ²
	Weight:	1,3 kg (whole set)
	Colour:	white / grey

Prices are excluding VAT.

STORM SAIL

Sail with smaller surface for high wind situations or for training young sailors. Due to the smaller area and lower gravitation point it makes the boat more stable with smaller risk of turning. One version available for both 420 and 460 models.

The sail is sold including battens, without the boom. Boom is not required.

Material:	monofilm + dakron
Sail area:	4,5 m ²
Colour:	single-colour scheme
Weight:	2,8 kg
Dimensions of the package:	165 x 20 x 20 cm

Prices are excluding VAT.

INFLATABLE SEATS

The inflatable seats are fitted to the main frame to ensure more comfortable seating in a slightly higher position. Made of the same material as floats, reinforced 'Heytex 5509', highly resistant to abrasion and very hard wearing.

To inflate the seats you use the same pump as for the floats. Seats are sold as a pair.

Colour:	grey
Dimensions:	135 x 35 x 12 cm
Weight:	2,8 kg (pair)

A custom fitted protective cover produced from UV resistant PVC.

The cover protects the assembled boat from dirt, wind and especially sun and prolongs the durability from the harmful UV effect of the sun on the floats and other parts of the boat.

Colour:

grey

Weight:

4-5 kg according to the model

Package dimensions:

30 x 30 x 30 cm

Prices are excluding VAT.

RUDDER BLADE COVER

Protective cover made from strong fabrics with UV resistance prevents the rudder blade from being scratched when stored.

Designed for carbon and aluminum blade of the M420 models and M460.

Prices are excluding VAT.

ENGINE SUPPORT

A board made of waterproof solid marine-grade wood that fits on the frame next to the rudder mounting. For models 420 and 460 it is possible to have both rudder and engine support fixed at the same time.

For MiniCat models 310 and GUPPY the board is fitted in the place of the rudder. An electric motor can be then fitted on the board.

We recommend a motor up to 3PS or 2,2 kW and preferably the long shaft.

ADDITIONAL TRAMPOLINE

Additional trampoline fits to the bow and is used to store baggage while sailing. It is designed as a pocket with closed sides, so cargo will not fall out even if the boat capsizes. When sailing faster it noticeably protects the crew from splashing water.

This trampoline is additional and is only used for carrying baggage not people!!

MAST FLOAT

Inflatable float for the top of the mast that prevents the boat from complete overturning in case of capsizing. It helps to turn the boat back much easier. It inflates with the same pump as the floats.

Suitable for 310, 420 and 460 models.

It can also be installed on older MiniCats models.

Volume of air:	cca 20 l
Colour:	red

RECHARGABLE ELECTRIC PUMP

A reliable battery-operated, rechargeable pump with reduced power consumption which significantly speeds up the assembly/disassembly of the boat.

Set includes battery which is charged from a 220 V socket. The desired pressure can be set and after reaching it the compressor automatically turns off.

The pump works in both inflation and deflation mode. The set comes with a shoulder bag.

The set contains:	Pump Battery Charger for 220 V The hose with the valve adaptor
Power:	450 l/ min.
